

World Cancer Day • 4th February 2026

AKSI

The Detection That Saves Lives

पहचान जो जीवन बचाए

Breast Cancer Awareness & Self-Examination

-  Breast cancer occurs when abnormal cells grow in the breast
-  Early detection can save lives
-  Monthly self-examination helps early identification
-  Look for lumps, shape changes, or unusual pain
- ✓ Early detection saves lives
- ✓ Self-examination is simple & safe
- ✓ Free screening available
- ✓ Confidential & supportive care

Make a step towards prevention
Help us promote awareness

AKSI – FORE School of Management, New Delhi

An awareness initiative in support of public health & community well-being
